SPEAKERS

ROSS A. CAPUTO, PhD

President of EAGLE, earned his PhD in Microbiological Physiology and Immunology from Miami University in 1976, and has over 30 years of experience in the FDA-regulated pharmaceutical industry on sterilization research and aseptic processing focusing on process optimization and control.

He has authored more than 50 publications and owns 15 patents, all related to infection control, sterilization processes and the production of sterile product.

DAVID HUSSONG, PhD

joined the EAGLE team in January 2018. He has over 40 years of experience, including 30 years with the FDA as a regulatory scientist. Most recently, he was a consultant to the pharmaceutical industry. His research has been focused on studies of microbial recovery and detection methods. He is currently the chair of the USP Microbiology Expert Committee.

In Dave's new position as Chief Technical Officer, he will assist in scientific and regulatory matters for analytical testing of products and pharmacy support services.

Established in 2004, EAGLE is an FDA-registered and ISO-certified laboratory that provides science-based solutions to the pharmaceutical industry, 503A compounding pharmacies, and 503B outsourcing facilities worldwide. EAGLE's services include: analytical and microbiological testing of products to help ensure compliance for the services listed; and working with researchers on clinical trials and investigational new drugs (INDs).
